INDEPENDENT AUDITORS' REPORT

To the City Council
City of Canton, Illinois

We have audited the accompanying modified cash-basis financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Canton, Illinois, as of and for the year ended April 30, 2020, and the related notes to the financial statements which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1. This includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Audit Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis of Qualified Opinion on Pension Trust Funds

Management has elected not to obtain actuarial valuations in compliance with Governmental Accounting Standards Board Statement (GASB) 67 *Financial Reporting for Pension Plans* or GASB 68 *Accounting and Financial Reporting for Pensions* for the Police and Fire Pension Trust Funds, accordingly these financial statements do not include all the required disclosures and supplemental schedules.

Qualified Opinion

In our opinion, except for the effects of the matter described in the “Basis of Qualified Opinion on Pension Trust Funds” paragraph, the Pension Trust Funds present fairly, in all material respects, the financial position of the Pension Trust Funds as of April 30, 2020, and the respective changes in financial position thereof, for the year ended, in conformity with generally accepted accounting principles.

Unmodified Opinions

In our opinion, except for the Pension Trust Funds, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Canton, Illinois as of April 30, 2020, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with the basis of accounting described in Note 1.

Basis of Accounting

We draw your attention to Note 1 of the financial statements which describes the basis of accounting. As discussed in Note 1, except for the Pension Trust Funds financial statements, the City of Canton, Illinois, prepares its financial statements on the modified cash basis, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter. The City of Canton, Illinois, prepares its Pension Trust Funds financial statements on the accrual basis of accounting, which is the basis of accounting generally accepted in the United States of America.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements as a whole that collectively comprise the City of Canton’s basic financial statements. The budgetary comparison information, combining statements, and the Schedule of Operating Expenditures Other than Depreciation – Water and Sewer Fund presented on pages 45 through 60 are the responsibility of management and were derived from, and relates directly to, the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole on the basis of accounting described in Note 1.

The statistical schedules on pages 61 through 65 have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on such information.

Other Reporting Required By Governmental Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 11, 2020, on our consideration of City of Canton, Illinois' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Canton, Illinois' internal control over financial reporting and compliance.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

To the City Council
City of Canton, Illinois

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Canton, Illinois as of and for the year ended April 30, 2020, and the notes to the financial statements, which collectively comprise the City of Canton, Illinois' basic financial statements and have issued our report thereon dated December 11, 2020. The City of Canton, Illinois, prepares its financial statements on the modified cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Canton, Illinois' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Canton, Illinois' internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Canton, Illinois' internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Canton, Illinois' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CITY OF CANTON, ILLINOIS
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES - MODIFIED CASH BASIS -
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
Year Ended April 30, 2020

Net change in fund balances - total governmental funds	\$ 1,496,326
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated lives and reported as depreciation expense. This is the amount by which depreciation of \$618,576 exceeded capital outlay of \$604,033 in the current period.	(14,543)
Net effect on long-term liabilities from the refunding of bonds.	240,000
The governmental funds report the effect of bond premiums when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities.	(394,062)
Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	<u>399,133</u>
Change in Net Position of Governmental Activities	<u><u>\$ 1,726,854</u></u>

See Notes to Financial Statements.

CITY OF CANTON, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2020

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Canton, Illinois is a non home-rule unit and operates under a Mayor-Aldermanic Form of government. The City provides the following services to its citizens: general government, public safety (police and fire), streets, sanitation, cemetery, economic development and water and sewer utilities.

A. FINANCIAL REPORTING ENTITY AND BASIS OF PRESENTATION

1. FINANCIAL REPORTING ENTITY

Financial criteria set forth in GASB Statement No. 14, The Financial Reporting Entity, have been reviewed to determine whether outside agencies with activities, which benefit the citizens of the City, should be included within its financial reporting entity. The criteria include, whether the City exercises significant oversight responsibility on the agencies' selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters, scope of public service, and special financing relationships. It has been determined that no other outside agency meets the above criteria, and therefore, no other agency has been included as component unit in the City's financial statements.

The accounts of the Parlin-Ingersoll Library are excluded from the accompanying financial statements because the City does not fund the Library and the Library's board of trustees controls operations. Although the Mayor appoints the trustees, the City does not exercise any other form of control over library operations, thus the Library has not been included in these statements.

2. BASIS OF PRESENTATION – GOVERNMENT – WIDE FINANCIAL STATEMENTS

The Statement of Net Position and Statement of Activities display information about the City government as a whole. They include all funds of the City except for the fiduciary funds that are reported in separate statements. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

3. BASIS OF PRESENTATION – FUND FINANCIAL STATEMENTS

Fund financial statements of the City are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by a separate set of self-balancing accounts that constitutes its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. Major individual governmental and proprietary funds are reported in separate columns with composite columns for other non-major funds. A fund is considered major if it is the primary operating fund of the City or meets the following criteria:

- a. Total assets, liabilities, revenues, or expenditure/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and
- b. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total of the corresponding total for all governmental and enterprise funds combined.

The funds of the City are described as follows:

Governmental Fund Types:

General Fund

The General Fund is the primary operating fund of the City and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds. The General Fund includes the City's General Fund, Liability Insurance Fund, Unemployment Compensation Fund, Worker's Compensation Fund, and Fire Technical Rescue Fund.

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of the specific revenue sources that are either legally restricted to expenditures for specified purposes or designated to finance particular functions or activities of the City. The reporting entity includes the following special revenue funds, which are reported as non-major funds with the exception of the Canton 1 Tax Increment Financing District:

<u>Fund</u>	<u>Brief Description</u>
Working Cash Fund	Accounts for assets legally restricted for providing short-term working cash loans to other funds.
Civil Defense Fund	Accounts for real estate taxes legally restricted for providing Civil Defense activities to the public.
Illinois Municipal Retirement	Accounts for real estate taxes legally restricted for IMRF and providing retirement benefits to employees.
Social Security Fund	Accounts for real estate taxes legally restricted for Social Security and providing retirement benefits to employees.
Motor Fuel Tax	Accounts for motor fuel taxes legally restricted for street and alley improvements.
Canton 1 Tax Increment Financing District	Accounts for revenues legally restricted for development projects within the designated tax increment financing project area.
Canton 2 Tax Increment Financing District	Accounts for revenues legally restricted for development projects within the designated tax increment financing project area.

Canton 3 Tax Increment Financing District	Accounts for revenues legally restricted for development projects within the designated tax increment financing project area.
Audit Fund	Accounts for real estate taxes legally restricted for obtaining required annual financial statement audit services.
Drug Prevention Fund	Accounts for fine and forfeiture revenues restricted for prevention and awareness activities.
DUI Fund	Accounts for the fine revenues restricted for capital expenditures.
Video Gaming Fund	Accounts for proceeds of video gaming taxes.
DCCA Loan Fund	Accounts for grant revenues legally restricted for making economic development loans to businesses and other organizations.

Capital Projects Fund

Account for the financial resources used for the acquisition or construction of major capital facilities, property development, and environmental assessment and remediation, other than those financed by the enterprise funds. The reporting entity includes the following capital project fund which is reported as a non-major fund:

<u>Fund</u>	<u>Brief Description</u>
IT&EC Environmental Escrow Fund	Accounts for settlement proceeds restricted for remediation activities at the former International Harvester Project Site.
Housing Grant Fund	Accounts for grant proceeds used for developmental and restoration activities for housing within the City.

Proprietary Fund Types:

Enterprise Funds

Enterprise funds are used to account for business-like activities provided to the general public. These activities are financed primarily by user charges, and the measurement of financial activity focuses on net income measurement similar to the private sector. The reporting entity includes the following enterprise funds:

<u>Fund</u>	<u>Brief Description</u>
Water Works and Sewer Fund	Accounts for the providing of public water and waste water treatment services.

Lake Fund	Accounts for the lake recreational activities.
Cemetery Fund	Accounts for the activities of operating and maintaining Greenwood Cemetery.

Fiduciary Fund Types:

Trust and Agency Funds

Account for assets held by the City in a trustee capacity of as an agent for individuals, private organizations or other governments. These include the police and fire pension trust funds, and the private purpose trust fund. The private purpose trust fund includes the Orendorf Fence and Hildebrand Trust which stipulate that only income from amounts donated can be spent for cemetery maintenance expenditures. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurements of results of operations. The City does not have an agency fund.

B. MEASUREMENT FOCUS

Measurement focus is a term used to describe “how” transactions are recorded within the various financial statements.

In the government-wide Statement of Net Position and the Statement of Activities, both governmental and business-like activities are presented using the economic resources measurement focus, within the limitations of the modified cash basis of accounting, as defined in item “C” below. Internal activity (transactions between or within funds) are reclassified and eliminated with the government-wide statements. Reimbursements are reported as a reduction of expenses.

In the fund financial statements, the “current financial resources” measurement focus as applied to the modified cash basis of accounting:

- a. The governmental funds utilize a “current financial resources” measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable resources at the end of the period.
- b. The proprietary funds utilize an “economic resources” measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. Assets and liabilities (whether current or noncurrent, financial, or nonfinancial) associated with their activities are reported. Proprietary fund equity is classified as net position.
- c. The pension trust funds financial statements are prepared using economic resources measurement focus and the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to each plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

C. BASIS OF ACCOUNTING

Basis of accounting is a term to describe “when” transactions are recorded in the financial statements.

In the government-wide Statement of Net Position and Statement of Activities and the fund financial statement, governmental and business-like activities are presented using a modified cash basis of accounting. This basis recognizes assets, liabilities, net position/fund equity, revenues, and expenditures/expenses when they result from cash transactions with a provision for depreciation in the government-wide statements, and the proprietary fund statements. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

As a result of the use of this modified cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as water deposits, accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) *are not recorded* in these financial statements. As a modification to the cash basis, the City has elected to report loans receivable as an asset.

The City’s reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements as applicable to modified cash basis reporting. Proprietary funds apply Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, as applicable to modified cash basis reporting, unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails.

D. CASH AND CASH EQUIVALENTS

Cash from certain City funds are invested in time deposits with an original maturity of three months or more when purchased. These accounts are classified as investments and are recorded at cost.

For purposes of the statement of cash flows, the Enterprise Funds consider all highly liquid investments (including restricted assets) with maturity of three months or less when purchased to be cash equivalents. Certificates of deposits are considered cash equivalents if the original maturity is three months or less.

Illinois Funds, a money market mutual fund created by the Illinois State Legislature and controlled by the Illinois State Treasurer, is reported at a \$1 per share value, which equals the City’s fair value in the pool.

E. INVESTMENTS

Investments are comprised of non-negotiable certificates of deposit, money market mutual funds, insurance contracts, and State, Local and U.S. government obligations and mutual funds are reported at fair value. Fair value is based on published prices on major exchanges as of April 30, 2020.

F. CAPITAL ASSETS

1. GOVERNMENT-WIDE FINANCIAL STATEMENTS – CAPITAL ASSETS

In the government-wide financial statements, capital assets arising from cash transactions are accounted for as assets in the Statement of Net Position. All capital assets are valued at historical cost or estimated historical cost if actual is unavailable.

Estimated historical cost was used to value the majority of the assets acquired prior to May 1, 2004. Prior to May 1, 2004, governmental funds' infrastructure assets were not capitalized. Infrastructure assets acquired since May 1, 2004, are recorded at cost.

Depreciation of all exhaustible capital assets arising from cash transactions is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful live using the straight-line method of depreciation. A capitalization threshold of \$5,000 is used to record all capital assets. The range of the estimated useful lives by type of asset is as follows:

Buildings	40 years
Improvements other than building	20 years
Machinery, furniture, and equipment	5-12 years
Utility property and improvements	15-25 years
Infrastructure	40 years

2. FUND FINANCIAL STATEMENTS – CAPITAL ASSETS

In the fund financial statements, capital assets arising from cash transactions acquired for use in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets acquired for use in proprietary fund operations are accounted for the same as in the government-wide statements.

G. LONG-TERM DEBT

All long-term debt arising from cash basis transactions to be repaid from governmental and business-type resources is reported as liabilities in the government-wide statements.

Long-term debt arising from cash basis transactions of governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures. The accounting for proprietary funds is the same in the fund financial statements as the treatment in the government-wide statements.

H. EQUITY CLASSIFICATION

Equity is classified as net position in the government-wide statements, and is displayed in three components:

- a. Invest in capital assets, net of related debt – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.

- b. Restricted net position – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position – All other net position that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

Government fund equity is classified as fund balance in the fund financial statements, and proprietary fund equity is classified the same as in the government-wide statements.

I. PROGRAM REVENUES

In the Statement of Activities, modified cash basis revenues that are derived directly from each activity or from parties outside the City’s taxpayers are reported as program revenues. The City has the following program revenues, if any, in each activity:

General Government	Fees, permits and hall rentals.
Public Safety	Contract with schools.
Public Works	Charges for maintenance services.
Sanitation	Garbage service fees.

All other governmental revenues are reported as general. All taxes are classified as general revenue even if restricted for a specific purpose.

J. OPERATING REVENUE AND EXPENSES

Operating revenues and expenses for proprietary funds result from providing services and producing and delivering goods and/or services. They also include all revenues and expenses not related to capital and related financing, noncapital financing, or investing activities.

K. INTERNAL AND INTERFUND BALANCES AND ACTIVITIES

In the process of aggregating the financial information for the government-wide Statement of Net Position and Statement of Activities, some amounts reported as interfund activity, if any, and balances in the fund financial statements have been eliminated or reclassified.

Interfund activity, if any, within and among the governmental and proprietary fund categories is reported as follows in the fund financial statements:

1. Interfund loans – Amounts provided with a requirement for repayment are reported as interfund receivables and payables.
2. Interfund services – Sales or purchases of goods and services between funds are reported as revenues and expenditures/expenses.
3. Interfund reimbursements – Repayments from funds responsible for certain expenditures/expenses to the funds that initially paid from them are not reported as reimbursements but as adjustments to expenditures/expenses in the respective funds.

4. Interfund transfers – Flow of assets from one fund to another where repayment is not expected are reported as transfers in and out.

Interfund activity and balances, if any, are eliminated or reclassified in the government-wide financial statements as follows:

1. Internal balances – Amounts reported in the fund financial statements as interfund receivables and payables are eliminated in the governmental and business-type activities columns of the Statement of Net Position, except for the net residual amounts due between governmental and business-type activities, which are reported as Internal Balances.
2. Internal activities – Amounts reported as interfund transfers in the fund financial statements are eliminated in the government-wide Statement of Activities except for the net amount of transfers between governmental and business-type activities, which are reported as Transfers – Internal Activities. The effects of interfund services between funds, if any, are not eliminated in the Statement of Activities.

L. FUND BALANCE

Governmental fund equity is classified as fund balance. The components of fund balance are:

- Non-spendable – consists of resources that cannot be spent because of their form.
- Restricted – consists of resources which have limitations imposed by enabling legislation and limitations imposed by creditors, grantors, or contributors.
- Committed – consists of resources which have limitations imposed by the governing board through formal action.
- Assigned – consists of resources which have limitations resulting from intended use.
- Unassigned – consists of the residual net resources of a fund.

The City's assigned fund balance is reporting authorized by the City Council.

The City's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. If different levels of unrestricted funds are available for spending, the City considers committed funds to be expended first followed by assigned and, lastly unassigned funds.

M. DEFERRED OUTFLOWS OF RESOURCES

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City only has one item that qualifies for reporting in this category. It is the deferred charge on refunding reported in the Water and Sewer Fund. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

N. DEFERRED INFLOWS OF RESOURCES

In addition to liabilities, the statement of net position and balance sheet will sometimes report a separate section for deferred inflows of resources.

This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Currently, there are no deferred inflows of resources reported in City's financial statements.

O. ACCOUNTING ESTIMATES

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues collected, expenditures paid, and other changes in fund equity during the reporting period. Actual results could differ from those estimates.

NOTE 2. TAX LEVIES AND COLLECTIONS

Property taxes attach as an enforceable lien on property as of January 1: The City adopted its 2018 tax levy on January 3, 2017. The City must submit its tax levy to the county clerk on or before the last Tuesday in December. The county clerk extends the amount called for under the respective funds and within the constraints of each fund's maximum tax rate. The county treasurer normally mails property tax bills to the taxpayers during May of the following year.

The bills are due in early June and September by the county treasurer who remits the tax collected in June, July, August, September and November to the City. As of April 30, 2020, the City had received all of its 2018 levy and none of its 2019 levy.

Following is a schedule of tax rates by fund for the 2019 levy per \$100 of equalized assessed valuation:

Fund	Rate	Maximum Allowable Rate
Governmental Fund Types:		
Corporate	.0000	.2500
Unemployment Compensation	.0192	
Fire Protection	.1030	.1500
Police Protection	.0750	.0750
Civil Defense	.0030	.0500
I.M.R.F.	.3295	
Social Security	.2265	
Liability Insurance	.1771	
Audit	.0194	
Workman's Compensation	.2348	
Proprietary Fund:		
Cemetery Fund	.0239	.0250
Fiduciary Fund Type:		
Fire Pension	.6960	
Police Pension	.4229	
	<u>2.3303</u>	

The City also receives road and bridge property taxes. However, these taxes are levied by Canton and Buckheart Townships.

NOTE 3. CASH AND INVESTMENTS

Investment risks include: credit risk (custodial credit risk and concentrations of credit risk), interest rate risk, and foreign currency risk. Deposit risks include: custodial credit risk and foreign currency risk.

Deposits

Custodial credit risk for deposits is the risk that in the event of a bank failure, the City's deposits may not be returned or the City will not be able to recover collateral securities in the possession of an outside party. The City's deposit policy provides that all deposits be guaranteed by the U.S. government, insured by the Federal Deposit Insurance Corporation (FDIC), or fully collateralized with securities held by the City or its agent in the City's name or by its counterparty's trust department or agent in the City's name.

The City's cash and cash equivalents at April 30, 2020 consisted of deposits with financial institutions and the Illinois Funds Money Market Fund. The Illinois Funds have a credit rating of AAAm, by an independent rating agency, indicating a strong capacity to maintain principal stability and to limit exposure to principal losses due to credit, market, and liquidity risks.

The monies invested in the Illinois Funds by the individual participants are pooled together and invested in U.S. Treasury bills and notes backed by the full faith and credit of the U.S. Treasury. In addition, monies are invested in fully collateralized time deposits in Illinois financial institutions, in collateralized repurchase agreements, and in treasury mutual funds that invest in U.S. Treasury obligations and collateralized repurchase agreements.

At April 30, 2020, all but \$140,000 of the City's deposits were covered by federal depository insurance, by collateral held by the financial institution's trust department or agent in the City's name, or invested in Illinois Funds Money Market Fund.

Investments

As of April 30, 2020, the City had the following investments:

Type of Investment	Fair Value/ Carrying Amount	Average Credit Quality/ Ratings (1)	Weighted Average Years to Maturity (2)
Primary Government			
Business-type Activities (included in Restricted Assets)			
Certificates of Deposit	\$ 492,589	N/A	0.22
Fiduciary Funds			
Certificates of deposit	\$ 1,334,631	N/A	2.08
Corporate bonds	2,186,166	A2	3.08
State & Local government	40,974	AAA	0.63
U.S. Government obligations and agency securities	3,352,744	AAA	5.20
Annuities	1,319,387	N/A	N/A
Common stock	4,020,758	N/A	N/A
Mutual funds	7,474,593	N/A	N/A
Total Fiduciary Investments	\$ 19,729,253		

(1) Ratings are provided where applicable to indicate associated credit risk. N/A indicates not applicable. Obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk.

(2) Interest rate risk is estimated using the weighted average years to maturity method.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Investing for the Fiduciary Fund is performed in accordance with investment policies adopted by the Board of Trustees complying with Illinois Compiled Statutes. Funds shall be invested as per Illinois Pension Code Section 3-135 and by the Public Funds Investment Act (20 ILCS 235/01).

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The Fund's policy provides that investments are diversified to minimize the risk of loss resulting from over-concentration of assets in a specific maturity period, a single issuer, or an individual class of securities while the Fund maintains sufficient liquidity. Investment guidelines have been established for monies invested to meet approximate market rates of return on its investments, consistent with constraints established by its safety objectives, cash flow considerations, and Illinois State laws that restrict the placement of public funds.

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities in the possession of an outside party. The City's policy provides that investments be diversified or collateralized to avoid incurring unreasonable risks regarding specific security types and/or financial institutions. Investments are insured by FDIC insurance or collateralized with securities held by the City or its agent in the City's name.

Concentration of credit risk is the risk of loss attributed to the magnitude of the City's investment in a single issuer. Investments representing 5% or more of total investments at April 30, 2020 are as follows:

United States Treasury Notes	\$ 1,146,975
Federal National Mortgage Association	1,119,960

NOTE 4. CAPITAL ASSETS

Capital assets activity, resulting from modified cash basis transactions, for the year ended April 30, 2020, is as follows:

	Ending Balance 4/30/2019	Additions	Deletions	Ending Balance 4/30/2020

2020 Western Star	-	94,053	-	94,053	22,165
General obligation bonds (alternate revenue source)					
2020 Refunding Bonds	-	4,870,000	-	4,870,000	470,000
Net issuance premium (discount)	-	405,321	11,259	394,062	11,259
Total long-term debt, governmental activities	\$ 5,569,405	\$ 5,369,374	\$ 5,554,169	\$ 5,418,387	\$ 533,218
Changes in business-type activities Long-Term Debt:					
IL EPA loan	\$ 691,071	\$ -	\$ 190,383	\$ 500,688	\$ 195,954
General obligation bonds (alternate revenue source)					
2012 Series	7,600,000	-	1,545,000	6,055,000	1,595,000
2013 Series	2,075,000	-	445,000	1,630,000	430,000
Net issuance premium (discount)	(72,784)	14,557	-	(58,227)	(21,289)
Total general obligation bonds	9,602,216	14,557	1,990,000	7,626,773	2,003,711
Total long-term debt business-type activities	\$ 10,293,287	\$ 14,557	\$ 2,180,383	\$ 8,127,461	\$ 2,199,665

The legal debt limit of the City, as defined by 65 ILCS 5/8-5-1 of the Illinois Compiled Statutes, is 8.625% of the most recent assessed valuation of the property located in the City's boundaries. For April 30, 2020, the City's legal debt limit was \$11,593,796. As of April 30, 2020, the Village reported outstanding debt of \$13,210,013, of which \$655,013 is applicable to the Village's legal debt limit. As a result, the legal debt margin as of April 30, 2020 is \$10,938,783.

Governmental Activities Long-term Debt:

The City's governmental activities long-term debt as of April 30, 2020, consisted of the following:

Street Sweeper Term Note

During 2017, the City borrowed \$145,737 to finance the purchase of a new street sweeper. Interest rate is 2.25%. The debt service requirements on this note are as follows:

<u>Year Ending 4/30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2021	\$ 29,794	\$ 1,379	\$ 31,173
2022	30,478	695	31,173
	<u>\$ 60,272</u>	<u>\$ 2,074</u>	<u>\$ 62,346</u>

Western Star Dump Truck Note

During 2020, the City borrowed \$94,054 to finance the purchase of a new dump truck. Interest rate is 3.88%. The debt service requirements on this note are as follows:

<u>Year Ending 4/30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2021	\$ 22,165	\$ 3,258	\$ 25,423
2022	23,041	2,382	25,423
2023	23,951	1,472	25,423
2024	24,896	526	25,422
	<u>\$ 94,053</u>	<u>\$ 7,638</u>	<u>\$ 101,691</u>

General Obligation Debt Certificates:

On January 23, 2020, the City issued \$4,870,000 of General Obligation Refunding Bonds (alternate revenue source) with an average interest rate of 3.5 percent to repay \$5,110,000 of outstanding 2011 Debt Certificates. Principal on the bonds is payable in annual installments ranging from \$470,000 to \$615,000 due December 15. Interest on the bonds is payable semi-annually on June 15 and December 15. The bonds mature through December 15, 2028. The bonds were issued at a \$405,321 premium. This premium is being amortized on a straight-line basis over the life of the bonds. The amortized premium on the bond issue at April 30, 2020, was \$11,259. The debt service requirements on these bonds are as follows:

<u>Year Ending 4/30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2021	\$ 470,000	\$ 143,618	\$ 613,618
2022	470,000	152,400	622,400
2023	505,000	133,600	638,600
2024	520,000	113,400	633,400
2025	545,000	92,600	637,600
2026	565,000	70,800	635,800
2027	580,000	53,850	633,850
2028	600,000	36,450	636,450
2029	615,000	18,450	633,450
	<u>\$ 4,870,000</u>	<u>\$ 815,168</u>	<u>\$ 5,685,168</u>

Business-type Activities Long-term Debt:

The City's business-type activities long-term debt as of April 30, 2020, consisted of the following:

Illinois EPA Loan:

In connection with a waterworks and sewer system maintenance project the City borrowed \$3,012,062 on an Illinois EPA Construction loan, including \$84,002 of construction period interest. The loan is payable in semi-annual installments of \$104,543 including interest at a rate of 2.93%, due February 28 and August 28 of each year. The final payment is due August 28, 2022.

The debt service requirements to maturity, on this loan, are as follows:

<u>Year ending 4/30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2021	\$ 195,954	\$ 18,703	\$ 214,657
2022	201,688	7,398	209,086
2023	103,046	1,505	104,551
	<u>\$ 500,688</u>	<u>\$ 27,606</u>	<u>\$ 528,294</u>

General Obligations Bonds (Alternate Revenue Source):

The City issued \$12,810,000 in General Obligation Refunding Bonds Series 2012 and 2013 (Alternative Revenue Source) with an average interest rate of 2.1 percent to advance refund \$11,000,000 of outstanding 2005 Series bonds with an average interest rate of 5 percent. The net proceeds of \$12,543,108 (after payment of \$106,367 in underwriting fees, insurance, and other issuance costs) purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the refunded 2005 Series bonds. As a result, \$11,000,000 of the 2005 Bond Series are considered to be defeased and the liability for those bonds has been removed from the financial statements.

As a result of the refunding, the City reduced its future cash outflows related to this debt by \$756,091 over the next 11 years and obtained an economic gain (difference between the present values of the old and new debt service payments) of \$681,747. While the refunding reduced the future cash outflows, the total debt outstanding increased. This increase, net of bond issuance costs, of \$1,518,202 is recorded as a deferred charge and is being amortized on a straight-line basis over the life of the bonds. The amortized deferred charge on the bond issue was \$138,018 during 2020 and the accumulated amortization was \$966,129 at April 30, 2020.

On December 19, 2012, the City issued \$10,000,000 of General Obligation Refunding Bonds (alternate revenue source). Principal on the bonds is payable in annual installments ranging from \$165,000 to \$1,725,000 due December 1. Interest on the bonds is payable semi-annually on June 1 and December 1, at rates ranging from 0.7% to 2.55%. The bonds mature through December 1, 2023. The bonds were issued at a \$125,000 discount. This discount is being amortized on a straight-line basis over the life of the bonds. The amortized discount on the bond issue at April 30, 2020, was \$79,546.

On February 12, 2013, the City issued \$2,810,000 of General Obligation Refunding Bonds (alternate revenue source). Principal on the bonds is payable in annual installments ranging from \$50,000 to \$450,000 due December 1. Interest on the bonds is payable semi-annually on June 1 and December 1, at rates ranging from 0.85% to 2.50%. The bonds mature through December 1, 2023. The bonds were issued at a \$35,125 discount. This discount is being amortized on a straight-line basis over the life of the bonds. The amortized discount on the bond issue at April 30, 2020, was \$22,352.

The General Obligation Refunding Bonds and the General Obligation Bonds bond ordinances stipulate that monies held in the water and sewer fund shall be aggregated and restricted to separate reserve accounts, totaling \$2,567,059 in the priority indicated by the order of the following:

Account	Amount	Expenditures
System Improvements	G.O. Alternate Bond proceeds plus interest earned on invested proceeds net of allowable project costs.	Paying of costs of Water and Sewer plant and system improvements.
Operations and Maintenance	Monthly amounts sufficient to pay current operations and maintenance expenses.	Paying of operations and maintenance expenses.
Depreciation	Monthly deposits as deemed necessary.	Cost of extraordinary repairs and placements to the existing system.
Surplus	All remaining money after the deposits to the Operations and Depreciation accounts.	Paying of bond principal and interest maturities, repairs and replacements and deficiencies to accounts listed above.

Bond debt service requirements to maturity are as follows:

Year ending 4/30	Principal	Interest	Total
2021	\$ 2,025,000	\$ 174,665	\$ 2,199,665
2022	2,065,000	133,950	2,198,950
2023	2,110,000	88,310	2,198,310
2024	1,485,000	37,670	1,522,670
	<u>\$ 7,685,000</u>	<u>\$ 434,595</u>	<u>\$ 8,119,595</u>

NOTE 6. DEFICIT FUND BALANCES

The following City funds have a deficit fund/equity balance as of April 30, 2020.

Civil Defense	\$ 62,474
Canton 2 TIF	44,342
Canton 3 TIF	11,309

NOTE 7. DEFINED BENEFIT PENSION PLANS

Illinois Municipal Retirement Fund

Plan Description

The City's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The City's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at <https://www.imrf.org/en/publications-and-archive/annual-financial-reports>.

Benefits Provided

The City's IMRF members participate in the Regular Plan (RP). Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings.

Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms

As of December 31, 2019, the following employees were covered by the benefit terms:

Retirees and beneficiaries currently receiving benefits	81
Inactive plan members entitled to but not yet receiving	35
Active plan members	<u>65</u>
Total	<u>181</u>

Contributions

As set by statute, the City's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires the City to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The City's annual contribution rate for calendar year 2019 was 11.92%. For the fiscal year ended April 30, 2020, the City contributed \$439,955 to the plan. The City also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Police Pension Fund

Plan Description:

Police sworn personnel are covered by the Police Pension Plan which is a defined benefit single-employer pension plan and which is administered by a board of trustees appointed by the Mayor and elected by pension members. The plan issues a stand-alone financial report that is filed with the Illinois Department of Insurance. A copy of the report may be obtained from the City. Although this is a single-employer pension plan, the defined benefits and employee and employer contributions levels are governed by Illinois Compiled Statutes (40ILCS 5/3) and may be amended only by the Illinois legislature. The city accounts for the plan as a pension trust fund.

At May 1, 2019, the Police Pension Plan membership consisted of:

Retirees and Beneficiaries currently Receiving Benefits	24
Terminated Employees Entitled to Benefits but not yet Receiving Them	<u>1</u>
	25
Current Employees	<u>19</u>
Total	<u>44</u>

Funding Policy:

The Recommended contribution is based on the Funding Policy for the Plan. A Funding Policy has three key numerical components:

1. The Actuarial Cost Method: The Actuarial Cost Method creates a contribution pattern for each year of an employee's working career ("Normal Cost" contributions). In addition, the Actuarial Cost Method can measure how well the funding is progressing to date.
2. Amortization Policy: When Plan funding is not where expected (according to plan), procedures are put into place to pay down any shortfall. This leads to a second piece of the cash contribution (the "Amortization Payment").
3. Actuarial Value of Assets: Fluctuations in the plans assets due to short-term gains and losses may be smoothed over some period of time to minimize long-term contribution volatility.

Actuarial Cost Method:

The Actuarial Cost Method under the Funding Policy is the Entry Age Normal (EAN) Cost Method (as a percent of payroll). The EAN method creates a pattern of contributions over employee working careers that are expected to be stable as a percent of payroll over time, creating equity over generations of taxpayers.

Amortization Policy:

The Funding Policy establishes that the unfunded liability (up to 90% of liability) as of 4/30/2019 will be amortized on a level dollar basis over 25 years. Future changes in unfunded will be handled separately.

The Police Pension Plan provides retirement benefits as well as death and disability benefits.

Covered employees are required to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The city is required to contribute the remaining amounts necessary to finance the plan as actuarially determined by an enrolled actuary.

Annual Pension Cost and Net Pension Obligation – The City obtained an actuarial valuation for the year ending May 1, 2019. The City based the current year contribution based on the actuarial valuation using the following assumptions:

The following methods have been prescribed in accordance with Section 3-125 of the Illinois Pension Code.

Funding method	Projected Unit Credit
Amortization method	Normal cost, plus an additional amount (determined as a level percentage of payroll) to bring the plan's funded ratio to 90% by the end of fiscal year 2040.
Asset valuation method	Investment gains and losses are recognized over a 5-year period.

Actuarial Assumptions

Interest rate	6.50%
Interest rate, prior fiscal year	6.50%
Healthy mortality rates - Male	RP-2014 Healthy Annuitant with Blue Collar Adjustment, males
Healthy mortality rates - Female	RP-2014 Healthy Annuitant with Blue Collar Adjustment, females
Disability mortality rates - Male	115% of RP-2014 Healthy Annuitant with Blue Collar Adjustment, males
Disability mortality rates - Female	115% of RP-2014 Healthy Annuitant with Blue Collar Adjustment, females
Decrements other than mortality	Experience tables
Rate of service-related deaths	10%
Rate of service-related disabilities	60%
Salary increases	Service-related table with rates grading from 13.08% to 3.45% at 35 years of service
Payroll growth	3.25%
Tier 2 cost-of-living adjustment	1.25%
Marital assumptions	80% of members are assumed to be married; male spouses are assumed to be 3 years older than female spouses.

The Police Pension Fund's unfunded actuarial liability is being amortized as a level percentage of projected payroll. The remaining amortization period at May 1, 2019, is 21 years.

As of May 1, 2019, the most recent actuarial valuation date, the Police Pension Plan was 61% funded. The actuarial accrued liability for benefits was \$25,814,293 and the actuarial value of assets was \$15,840,870, resulting in an underfunded actuarial accrued liability (UAAL) of \$9,973,423.

Fire Pension Fund

Plan Description

Fire sworn personnel are covered by the Fire Pension Plan which is a defined benefit single-employer pension plan and which is administered by a board of trustees appointed by the Mayor and elected by pension members.

The Plan issues a stand-alone financial report that is filed with the Illinois Department of Insurance. A copy of the report may be obtained from the City. Although this is a single-employer pension plan, the defined benefits as well as the employee and employer contributions levels are mandated by Illinois Compiled Statutes (40ILCS 5/4) and may be amended only by the Illinois legislature.

The City accounts for the plan as pension trust fund. At May 1, 2019, the Fire Pension Plan membership consisted of:

Retirees and Beneficiaries currently	
Receiving Benefits	25
Terminated Employees Entitled to	
Benefits but not yet Receiving Them	-
	<hr/>
	25
Current Employees	15
Total	<hr/>
	40

The Fire Pension Plan provides retirement benefits as well as death and disability benefits. Employees attaining the age of 50 or more with 20 years of creditable service are entitled to receive a monthly retirement benefit of one-half of the monthly salary attached to the rank held in the fire service at the date of retirement. The monthly pension shall be increased by one-twelfth of 2.5% of such monthly salary for each additional month over 20 years of service through 30 years of service to a maximum of 75% of such monthly salary. Employees with at least 10 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced retirement benefit. The monthly pension of a firefighter who retired with 20 or more years of service after January 1, 1977, shall be increases 3% annually.

Covered employees are required to contribute 9.455% of their salary to the Fire Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without interest. The City is required to contribute the remaining amounts necessary to finance the plan as actuarially determined by an enrolled actuary. The Fire Pension Fund's unfunded actuarial liability is being amortized as a level percentage of projected payroll. The remaining amortization period at May 1, 2019, is 21 years.

The City obtained an actuarial valuation for the year ending April 30, 2019. The City based the current year contribution using the entry age normal cost funding method. The City based the current year contribution based on the actuarial valuation using the following assumptions:

The following methods have been prescribed in accordance with Section 4-118 of the Illinois Pension Code.

Funding method	Projected Unit Credit
Amortization method	Normal cost, plus an additional amount (determined as a level percentage of payroll) to bring the plan's funded ratio to 90% by the end of fiscal year 2040.
Asset valuation method	Investment gains and losses are recognized over a 5-year period.

Actuarial Assumptions

Interest rate	6.25%
Interest rate, prior fiscal year	6.00%
Healthy mortality rates - Male	RP-2014 Healthy Annuitant, with Blue Collar Adjustment, males
Healthy mortality rates - Female	RP-2014 Healthy Annuitant, with Blue Collar Adjustment, females
Disability mortality rates - Male	115% of RP-2014 Healthy Annuitant, with Blue Collar Adjustment, males
Disability mortality rates - Female	115% of RP-2014 Healthy Annuitant, with Blue Collar Adjustment, females
Decrements other than mortality	Experience tables
Rate of service-related deaths	20%
Rate of service-related disabilities	80%
Salary increases	Service-related table with rates grading from 13.08% to 3.45% at 35 years of service
Payroll growth	3.25%
Tier 2 cost-of-living adjustment	1.25%
Marital assumptions	80% of members are assumed to be married; male spouses are assumed to be 3 years older than female spouses.

As of May 1, 2019, the most recent actuarial valuation date, the Fire Pension Plan was 36% funded. The actuarial accrued liability for benefits was \$21,800,019 and the actuarial value of assets was \$7,941,124, the unfunded accrued liability was \$13,858,895.

Police and Fire Pension Funds

Summary of the Plan's Significant Accounting Policies and Asset Matters:

Basis of Accounting

The financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to each plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when dues and payable in accordance with the terms of each plan.

Method Used to Value Investments

Investments are reported at fair value on the financial statements. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at a current exchange rates. For actuarial calculation purposes investments in the U.S. Government and Agency obligations are valued at amortized cost.

NOTE 8. INTERFUND BALANCES AND TRANSACTIONS

The following schedule reports interfund receivables and payables:

Amount	Due to:	Due from:
\$ 172,578	General Fund	Special Revenue Fund: Canton 2 TIF
42,934	General Fund	Special Revenue Fund: Canton 1 TIF
62,474	General Fund	Special Revenue Fund: Civil Defense
3,052	General Fund	Business Type Funds
69,000	Special Revenue Fund: Canton 1 TIF	Special Revenue Fund: Canton 2 TIF
10,000	Special Revenue Fund: Canton 2 TIF	Special Revenue Fund: Canton 3 TIF
12,642	Special Revenue Fund: Canton 1 TIF	Special Revenue Fund: Canton 3 TIF

Interfund balances result from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system and (3) payments between funds are made. The balances will be repaid with the excess of revenues over expenditures in future years; therefore a significant majority of the balances will not be collected in the subsequent year.

Interfund transfers for the year ended April 30, 2020 were:

	<u>Transfers In</u>	<u>Transfers Out</u>
General Fund	\$ 91,930	\$ 57,900
Greenwood Cemetery Fund	93,876	22,140
Video Gaming Fund	-	128,110
Social Security Fund	132,086	-
IMRF Fund	10,000	-
Housing Grant Fund	124	-
Audit Fund	2,000	-
DUI Fund	134	-
Drug Prevention Fund	3,182	-
Water & Sewer Fund	-	125,182

Transfers are used to (1) move revenues from the fund collecting them to the fund that statute or budget reflects to expend them and (2) use unrestricted revenues collected to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 9. COMMITMENT/SUBSEQUENT EVENTS

As of April 30, 2020, the Canton 1 Tax Increment Fund has commitments with local businesses to refund a portion of the tax increment. These commitments are based on an agreed upon percentage of the total yearly increment and are capped at a maximum. The maximum commitments total approximately \$1,350,000. There are also agreements with other local taxing bodies to share a portion of the annual increment.

As of April 30, 2020, the Canton 2 Tax Increment Fund has commitments with local businesses to refund a portion of the tax increment. These commitments are based on an agreed upon percentage of the total yearly increment and are capped at a maximum. The maximum commitments total approximately \$925,000. There are also agreements with other local taxing bodies to share a portion of the annual increment.

As of April 30, 2020, the Canton 3 Tax Increment Fund has commitments with local businesses to refund a portion of the tax increment. These commitments are based on an agreed upon percentage of the total yearly increment and are capped at a maximum. There were no commitments during the current year. There are also agreements with other local taxing bodies to share a portion of the annual increment.

At April 30, 2020, the City had entered one project in the proprietary funds which remained uncompleted. The City paid \$5,541 through April 30, 2020 towards a project to install a new gate at Canton Lake.

The City has evaluated subsequent events through December 11, 2020, the date which the financial statements were available to be issued.

NOTE 10. CONTINGENCIES

LITIGATION

The City is the defendant in several claims and lawsuits. Based on information of the City's legal counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the City.

NOTE 11. POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

Plan Description

In addition to the pension benefits described in Note 7, the City provides post-retirement hospital, health, life, and dental insurance coverage to retired employees in accordance with personnel policy or union contract. The portion of insurance coverage paid by the City varies depending on whether the employee was union or nonunion, the personnel policy in effect at the date of retirement, and the retiree's length of service. Generally, the City pays 100% of the retiree's insurance and a portion or all of the retiree's dependent coverage until the retiree reaches age 65. At age 65, the insurance coverage is terminated and the retiree can then make application to Medicare at his own expense. Retired employees are eligible for this coverage only if they also qualify for pension benefits under the Police, Fire, or IMRF pension fund.

Employees covered by benefit terms

At April 30, 2019, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	34
Active employees entitled to but not yet receiving benefits	<u>86</u>
	<u>120</u>

Total OPEB Liability

The City's total OPEB liability of \$9,237,550 was measured as of April 30, 2019 under GASB 75, and was determined by an actuarial valuation as of that date. The \$9,237,550 is comprised of liabilities of \$3,373,395 for active employees and \$5,864,155 for retirees. The annual expense for the fiscal year under GASB 75 was \$1,000,038.

Breakdown of Liability by City Groups:

Retired

City of Canton	\$5,864,155
----------------	-------------

Active – City of Canton

Fire	\$ 874,674
------	------------

Police	1,732,060
--------	-----------

Other	<u>766,661</u>
-------	----------------

Total	<u>\$3,373,395</u>
-------	--------------------

Total City of Canton	<u>\$9,237,550</u>
----------------------	--------------------

Actuarial Assumptions

The total OPEB liability in the April 30, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs:

Salary increases	3.00%
------------------	-------

Discount rate	4.50%
---------------	-------

Return on assets	4.50%
------------------	-------

Pre-retirement turnover	10% per year
-------------------------	--------------

For all lives, mortality rates were 2000 Group Annuity Mortality, projected using Male and Female tables.

CITY OF CANTON
NOTES TO SCHEDULE OF EMPLOYER CONTRIBUTIONS
ILLINOIS MUNICIPAL RETIREMENT FUND

Notes to Schedule:

***Summary of Actuarial Methods and Assumptions Used in the Calculation
of the 2019 Contribution Rate****

Valuation Date:

Notes Actuarially determined contribution rates are calculated as of December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and Assumptions Used to Determine 2019 Contribution Rates:

<i>Actuarial Cost Method:</i>	Aggregate entry age = normal
<i>Amortization Method:</i>	Level percentage of payroll, closed
<i>Remaining Amortization Period:</i>	24-year closed period
<i>Asset Valuation Method:</i>	5-year smoothed market; 20% corridor
<i>Wage Growth:</i>	3.25%
<i>Price Inflation:</i>	2.50%, approximate; No explicit price inflation assumption is used in this valuation.
<i>Salary Increases:</i>	3.35% to 14.25%, including inflation
<i>Investment Rate of Return:</i>	7.50%
<i>Retirement Age:</i>	Experience-based table of rates that are specific to the type of eligibility condition; last updated for the 2017 valuation pursuant to an experience study of the period 2014 to 2016.
<i>Mortality:</i>	For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017. The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017. The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017. The IMRF specific rate were developed from RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Other Information:

Notes: There were no benefit changes during the year.

* Based on Valuation Assumptions used in the December 31, 2017, actuarial valuation; note two year lag between valuation and rate setting.
