Facts Related to Emergency: In late 2019, a new and significant outbreak of Coronavirus Disease 2019 (COVID-19) emerged in China. COVID-19 is a novel severe acute respiratory illness that can spread among people through respiratory transmissions and present with symptoms similar to those of influenza. There is no vaccine currently available for COVID-19. Certain populations are at higher risk of experiencing more severe illness as a result of COVID-19, including older adults and people who have serious chronic medical conditions such as heart disease, diabetes, or lung disease.

The City of Canton is continuing its efforts to prepare for any eventuality given that this is a novel illness and given the known health risks it poses for the elderly and those with serious chronic medical conditions. The World Health Organization declared COVID-19 a Public Health Emergency of International Concern on January 30, 2020; the United States Secretary of Health and Human Services declared that COVID-19 presents a public health emergency on January 27, 2020; and, the Governor of the State of Illinois, J.B. Pritzker, initially proclaimed COVID-19 a Disaster on March 9, 2020, and he has re-proclaimed that a disaster exists within the State of Illinois as recent as May 29, 2020.

In response to the COVID-19 outbreaks, the Centers for Disease Control and Prevention (“CDC”) has deemed it necessary to prohibit or restrict non-essential travel to or from those countries, and federal, state, and local officials have continued to impose restrictions, such as “stay at home” orders, in order to reduce the spread of the COVID-19.

As of August 18, 2020, the Illinois Department of Public Health (IDPH) indicated 209,594 confirmed cases of COVID-19 with 7,782 deaths (*see* www.dph.illinois.gov/covid19). As of August 18, 2020, there have been forty-eight (48) positive (confirmed) cases in Fulton County, according to the IDPH.

Nature of Emergency: The COVID-19 outbreak is a “disaster” and “public health emergency” as defined under 20 ILCS 3305/4, as amended. There is an imminent threat that outbreak of COVID-19 may spread within the corporate limits of the City of Canton, resulting in or threatening the death or injury of persons to such an extent that extraordinary measures must be taken to protect the public health, safety and welfare.

During the existence of the Local State of Emergency declared hereunder, the Mayor shall execute such authority and executive orders as provided under the Illinois Municipal Code, the Illinois Emergency Management Agency Act, City of Canton Ordinance No. 4182 (as amended), and any other applicable city ordinances.

This Declaration of Local State of Emergency shall be filed with the City Clerk as soon as practicable.

I, KENT McDOWELL, whose name is signed to this instrument, being first duly sworn, signed and executed the instrument as the Declaration of Local State of Emergency, and that I signed willingly, and that I executed it as my free and voluntary act for the purposes therein expressed.

Dated this 18th day of August, 2020.

Kent McDowell, Mayor
City of Canton, Illinois

NOTARY ACKNOWLEDGMENT
